*Toronto spends
33% of her Taxes or
22% of her total revenue
on education in schools*

*The Province of Ontario spends
18% of her revenue
in subventions to aid elementary and
secondary schools*

Do you know just how much and what sort of service is rendered to the public in exchange for these huge expenditures?

One way of approach is to get in touch with the Ontario Educational Association which is made up of men and women who have devoted themselves to the education of youth.
