

## The Spending of \$20,000,000 is "Some" Job.

Who are going to supervise the spending of your contributions to the civic exchequer for the next year? Are you going to have a hand in getting out desirable candidates? Or are you going to let your neighbors select the candidates? Three-quarters, say, of your choice—perhaps your entire choice—is gone when you delegate the selection of candidates to some one else.

*Query:*

Who select the candidates?

*Answer:*

Those most interested.

*Query:*

Why are they most interested?

*Answer:*

You may not be able to find out. But one thing is certain—you can be as interested as anyone else.

There has never been a time in Toronto's history, when citizen interest was as essential or could do as much good as at present.
