Are the Business of Every Citizen.

"How's Business?"

## The Desire to Serve the Community

is a quality inherent in most citizens. "Earning a living", however, exacts from the average citizen the major portion of his time and energy.

Channels of Public Service, therefore, other than those offered through everyday business, must be convenient in order that the desire to serve may pass over into active service. The Help-Your City-Suggestion-Service carried on by the Bureau is one medium through which your desire to serve the community may be made productive.

Through intimate knowledge of your district, you may be aware of conditions which should be brought to the attention of the various civic Departments, Commissions or Boards. Reports on such conditions are appreciated by them and make for efficient and economical administration. You have also, no doubt, ideas and plans for the civic betterment of Toronto which are worthy of thoughtful consideration.

If you have any such reports or suggestions, simply write them on the attached cards and send them to the Bureau of Municipal Research, or telephone Main 3620. The Bureau will make any necessary inspection or enquiry, take the matter up with the Department, Commission or Board concerned, and report progress to you.

All communications marked "Confidential" will be so regarded. Please give name and address.
