## LETTER OF TRANSMITTAL TO THE CITIZENS.

September, 1918.

To the Citizens of Toronto :

The time to begin the making of definite plans for carrying on the city's business next year is near at hand. As citizens we must begin to think about our civic business for next year, just as we plan for our private enterprises. It is generally conceded that the making of the city's budget for any year should not begin later than October of the preceding year. In any event, taxpayers must begin not later than that time to plan for the proper expenditure of the city's income, which they supply. As a first step toward such planning one must learn, if one does not know, what the plans were for this year's expenditure. The Bureau therefore presents herewith an analysis of the Official Estimates for 1918.

In preparing this analysis it has been necessary, to some extent, to make arbitrary divisions of some items; but, owing to the improvement in the form of estimate submitted by some departments to the City Council and to the co-operation of other departments in supplying the necessary information, such arbitrary distribution has been cut to a minimum, pending the adoption by the city of a uniform system of Official Estimates based on object of expenditure, character of expenditure, administrative units, and activities performed.

It is not sufficient merely to have one's opinion of a year's expenditure or of the efficiency of the men who controlled it. In order to be effective, the citizen must see to it that there will be three (or two, as the case may be) candidates for Aldermen in his Ward, four candidates for Controller and one candidate for Mayor, whom he should like to elect as custodians of his interests as a citizen during the coming year.

The men who select the candidates are the men who determine the quality of the city government. When a voter gets to the polling booth and does not see on the ballot the name of a single candidate for whom he cares to vote, he finds that, in effect, he has thrown away his franchise. The most he can do is to make a selection from the selections of other people who have been wiser in their generation or at least more instant in business.

The statements of the city's expenditures which have been issued this year are on a plane which, as to clearness, definiteness and comprehensiveness, has never been previously attained in this city and rarely in any city. Considerable improvement has also been made in the official estimates or budget and further improvements will undoubtedly be made as the accounting system is recast and as the burden of the war is lifted. The best way to insure the continuance of the present tendency is to send to the City Council and Board of Control men who will stand firmly behind progressive policies and the permanent officials who are giving them effect.

Respectfully submitted,

JOHN MACDONALD,  
President.

JOHN I. SUTCLIFFE,  
Hon. Secretary.

BUREAU OF MUNICIPAL RESEARCH,

HORACE L. BRITTAINE,  
Managing Director.

\*The division of the debt charges on the Exhibition Park property between the Parks Department and the Exhibition, in a scientific and equitable manner, especially if wider uses of the property by the community can be developed, might contribute toward putting the Exhibition on a paying basis. The Exhibition, however, is something more than a trading venture, and therefore should not be treated purely as a trading undertaking. If the Exhibition were run as an entirely separate accounting and administrative unit, carrying directly its own debt charges, there would be good reason and precedent for the payment, if necessary, by the City to the Board of an annual subvention for its services as a great educational and publicity agency. In this way the Exhibition would demonstrate to all its value as an investment for the city.

\*Of the total amount to be raised by taxation for 1918, \$4,955,361.49, or 8½ mills (7½ mills on one total assessment and 1 mill on another—see page 18) goes for war purposes. This classification cannot be made for 1915, 1916 and 1917, as the greater portion of the war expenditures for this period was raised by debentures. The actual amount called for in the detailed estimates of war expenditures (see page 17) is \$4,949,300.93.

It would be well to note that the assessment figures given above are those of the assessment for general tax purposes, as given in the final estimates for the respective years. However, the amount of taxes shown above includes School Tax and Provincial War Tax.
